

Issues/Programs Lists

All of the station's issues/programs lists for the entire license term were timely posted to the station's paper public file prior to the first quarter of 2018 and to the online public file beginning with the first quarter of 2018. In addition, the station posted its issues/programs lists for the period from January 1, 2013, through the fourth quarter of 2017 in the online public file prior to the deadline for such postings. The station did not initially realize, however, that the partial-year period from June 1, 2012, through December 31, 2012, also is considered to be a part of the current license term, and it therefore did not initially post the quarterly reports covering that period to the online public file. Upon being informed that these oldest reports of the license term should be included, however, the station retrieved copies of them from the paper public file, scanned them, and posted them in the online file. Accordingly, the public inspection file is now complete.
