

## W300DH, Corning, NY INFORMATION

### 1. Directional Antenna

The directional antenna is a Scala FMV-2VV. The pattern listed in the LMS Form 302 Application is the correct pattern, but, there is no place to include the antenna orientation. The correct antenna orientation is 180 degrees from True North. This was an issue caused when the FCC switched from the CDBS to LMS system.

### 2. Primary Station

The Primary station has been changed from WPHD-HD2 to WPHD-HD1; Elmira, NY; Facility ID number: 71509. The Primary Station is being received directly off air.
