Re: Application for New Digital Low
Power Television/TV Translator Station
PRICE, UT
Fac ID: 127897
File Number: BMJADTL-20100518AAM

Dear Applicant:

This letter concerns the above-referenced application for new digital low power television/television translator station. The application specified a channel between 38 and 51 (out of core channel), a channel displaced by the Commission's Incentive Auction.¹ Applicants specifying out of core channels were provided an opportunity to amend their applications to specify a new channel between 2 and 37 (in core channel) during a filing window that closed January 31, 2020.² As stated in the Window PN, applications that were not amended to specify an in core channel during this window will be subsequently dismissed.³ Commission records indicated that no such amendment specifying an in core channel was filed for this application.

WHEREFORE, the above facts considered, your application **IS DISMISSED**.⁴

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".

Kevin R. Harding
Deputy Chief, Video Division
Media Bureau
