

DEMONSTRATION OF COMPLIANCE WITH MULTIPLE OWNERSHIP RULES

High Desert Broadcasting LLC (“High Desert”), the licensee of KGMX(FM), Lancaster, California, hereby demonstrates that the instant modification application fully complies with the Commission’s multiple ownership rules.

KGMX(FM) is “home” to the Nielsen Los Angeles radio market. High Desert is the licensee of two additional radio stations in the Nielsen Los Angeles radio market: KOSS(AM), Lancaster, California and KUTY(AM), Palmdale California. Jeri Lyn Broadcasting, Inc., the 5% Member of High Desert, is the licensee of radio station KHTS(AM), Canyon Country, California, also located in the Nielsen Los Angeles radio market. Point Broadcasting, LLC (“Point”), High Desert’s parent company, supplies programming to KAVL(AM), Lancaster, California pursuant to a time brokerage agreement (“TBA”).¹ High Desert has no attributable ownership interests, whether by ownership LMA, or JSA, in any other station in the Nielsen Los Angeles radio market.

The most recent available Nielsen data for the Los Angeles radio market reveals that there are 93 commercial and noncommercial radio stations in the market. Under the broadcast multiple ownership rules, in a radio market with 45 or more commercial and noncommercial radio stations, an entity may lawfully own, operate and control up to 8 radio stations, only 5 of which may be in one class. Accordingly, High Desert’s attributable interests in 4 AM and 1 FM station in the Nielsen Los Angeles radio market is fully compliant with the Commission’s multiple ownership rules.

In addition, a modified contour overlap analysis is required in this case as the contours of KGMX overlap with commonly owned or controlled stations that are not within the Los Angeles market. These include KKZQ(FM), Tehachapi, California; KQAV(FM), Rosamond, California; KTPI(AM), Mojave, California, KTPI-FM, Mojave, California, and KCEL(FM), Mojave, California. None of these stations are located within the geographic boundaries of any Nielsen Metro. High Desert is the licensee of KKZQ(FM) and KQAV(FM), and its affiliate, Coloma Mohave, LLC, is the licensee of KCEL(FM). Point supplies programming to KTPI(AM) and KTPI-FM pursuant to a TBA. Accordingly, attached hereto is a modified contour overlap analysis prepared by Jeremy Ruck demonstrating the instant application’s compliance with the Commission’s multiple ownership rules for the non-Metro markets.

¹ The TBA is on file at the FCC; however, if a copy is requested, it will be provided.

MULTIPLE OWNERSHIP STUDY

The following engineering statement and attached exhibits have been prepared for **High Desert Broadcasting LLC** ("High Desert"), licensee of FM broadcast station KGMX(FM) at Lancaster, California, and are an analysis of multiple ownership by High Desert pursuant to the provisions of Section 73.3555 of the Commission's Rules.¹ Due to the geographic location of KGMX relative to several BIA rated markets, the use of both the rated market and interim contour methodologies are necessary to demonstrate compliance with that section of the Commission's Rules.

KGMX is considered "home" to the Los Angeles rated market. The technical parameters proposed under this application do not propose a relocation of the transmitter facility for KGMX. As a result, upon a grant of the underlying application, KGMX would continue to be considered home to the Los Angeles rated market. The latest BIA data, which is attached to this study, specifies that 93 stations are considered home to that market. The following table lists all stations home to the Los Angeles rated market in which High Desert would have an attributable interest.

Callsign	Community of License	Service	Facility ID
KGMX(FM)	Lancaster, California	FM	19703
KAVL	Lancaster, California	AM	2318
KOSS	Lancaster, California	AM	19702
KUTY	Palmdale, California	AM	22011

High Desert has an attributable interest in four services, three of which are in the same service. It is therefore necessary and sufficient to demonstrate that High Desert would not have an attributable interest in more than fifty percent of the stations in the market. As previously stated,

¹ The Facility ID for KGMX(FM) at Lancaster, California is 19703.

BIA considers 93 stations to be home to the Los Angeles market, thus, the proposed technical parameters for KGMX comply with the rated market method limitations. KGMX is not considered home to any other rated market.

A portion of the predicted 70 dBu service contour falls outside of the rated market, and overlaps with other stations attributable to the principals of High Desert. The contour overlap between KGMX as proposed and other High Desert facilities results in the creation of two contour markets. Exhibit E-1 illustrates these markets. It should be noted that the geographic area that is the second contour market is very small in size, and is more easily seen in Exhibit E-4. The following table summarizes the facilities attributable to High Desert.

Callsign	Community of License	Service	Facility ID	Contour Color
KGMX(FM)	Lancaster, CA	FM	19703	Blue
KCEL(FM)	Mojave, CA	FM	164156	Green
KKZQ(FM)	Tehachapi, CA	FM	85024	Red
KOSS	Lancaster, CA	AM	19702	Orange
KQAV(FM)	Rosamond, CA	FM	70879	License: Magenta
KQAV(FM)	Rosamond, CA	FM	70879	CP: Dark Green
KUTY	Palmdale, CA	AM	22011	Dark Purple
KAVL	Lancaster, CA	AM	2318	Cyan
KTPI	Mojave, CA	AM	66229	Yellow
KTPI-FM	Mojave, CA	FM	2320	Black

The first contour market is comprised of six stations attributable to High Desert, equally split between the two aural services. Exhibit E-2 illustrates this first contour market.² The following table summarizes the six stations attributable to High Desert that form this first market.

² The area defining the market created by the common overlap of attributable stations was formed through the use of the KQAV construction permit technical parameters. By inspection, it can be seen that the market composition and analysis is does not change with the selection of the KQAV license (BLH-19930908KD) or KQAV construction permit (BPH-20190114AAK).

Exhibit E-3 is an analysis of the first contour market. Since this first market is created by the common overlap between six stations, equally split between the two services, it is necessary and sufficient to demonstrate that at least fifteen total stations serve the market. As is depicted in Exhibit E-3, and summarized by the combination of the preceding and following tables, there are at least nineteen total stations serving the market. This quantity of facilities complies with the requirements of Section 73.3555 of the Commission's Rules.

As was previously stated, the geographic area of the common contour overlap that defines the second market is extremely small. This area is identified in the map labeled as Exhibit E-4.

The following table is a summary of the stations that combine to create this market.³

This market is similar to the first market as it is also defined by the common overlap between six stations, split equally between the two services. Similarly, it is necessary and sufficient to demonstrate that there are at least fifteen stations serving the market. Exhibit E-5 illustrates the analysis of the market, and with the combination of the preceding table and following table summarizing the facilities depicted, together demonstrate that at least nineteen stations serve the market.

³ The creation of this market is also based on the use of the construction permit 70 dBu service contour for KQAV. The selection of the license or the construction permit has no impact on the analysis of the market.

Although the principals of High Desert have an attributable interest in other facilities within the region, none of those facilities has contour overlap with either the proposed or licensed KGMX 70 dBu service contour.

Since each of the markets under consideration complies with the provisions of Section 73.3555 of the Commission's Rules, the proposed changes to the technical parameters of KGMX comply with the provisions of Section 73.3555 of the Commission's Rules.
