CBS Television Licenses LLC (*ViacomCBS*), licensee of WBZ-TV, Boston, MA (the “Station”) is in the process of replacing the Station’s primary transmitter and antenna system as part of the broadcast spectrum incentive auction repack. To facilitate this work, WBZ-TV began operating its permanently licensed 850 kW ERP auxiliary facility in August, 2019.<sup>1</sup>

On February 16, 2020, the shared WBZ-TV antenna system suffered an outage that required a power reduction of 80% to assure reliable operation. This is to notify the Commission that necessary repairs have been made and the Station began operating with its authorized auxiliary antenna and effective radiated power (ERP) March 13, 2020 at 1:30 AM.
