Re: Application for New Digital Low  
Power Television/TV Translator Station  
Tyler, TX  
Fac Id. 183759  
File No. BNPDTT-20091123AIY

Dear Applicant:

This letter concerns the above-referenced application for new digital low power television/television translator station. The facilities specified in the application were displaced as a result of the Commission's Incentive Auction repacking process.<sup>1</sup> Applicants specifying facilities that were displaced by the Incentive Auction repacking process were provided an opportunity to amend their applications to specify a new channel between 2 and 37 (in core channel) during a filing window that closed January 31, 2020.<sup>2</sup> As stated in the Window PN, applications that were not amended to specify a new in core channel during this window will be subsequently dismissed.<sup>3</sup> Commission records indicated that no such amendment specifying a new in core channel was filed for this application.

WHEREFORE, the above facts considered, your application **IS DISMISSED**.<sup>4</sup>

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding".

Kevin R. Harding  
Deputy Chief, Video Division  
Media Bureau
