

## ONLINE PUBLIC INSPECTION FILE EXHIBIT

Singing River Media Group, LLC became licensee of the station on April 1, 2019, after consummation of a Commission approved assignment of license, accordingly quarterly issues/programs lists and any other filings for dates prior to that April 1, 2019, are not the responsibility of Singing River.

While all Quarterly Issues/Programs lists covering the time since Singing River became licensee on April 1, 2019, have been uploaded to the station's FCC online public file, we note that 2019-Q2 and 2019-Q3 quarters were uploaded in a subsequent quarter. Those were the first two quarters after we became the licensee and began operating the station and we were inadvertently late in our uploading.

We have adopted additional internal procedures to ensure continued timely compliance with the online public file requirements.
