

The licensee has carefully reviewed the station's online public inspection file to assure that items filed with the Commission and required to be placed in the online public inspection file have been populated in it and that items required to be uploaded to the online public inspection file have been as of this time. The station uploaded all items required to be uploaded to the station's online public inspection file in a timely fashion, with the exception of one quarterly issues/programs list that was filed just hours late. In addition, it was noted that one prior ownership report appears not to have been filed, although this information, which lists those who were elected to the school board, is always available on the licensee's website. Based on this review, the licensee certifies that to the best of its knowledge, information and belief the station's online public inspection file is now complete.
