
Summary of FM Auxiliary License to Cover Filing

Call letters: WAFX(FM).C (Auxiliary)
City of License: Suffolk, VA
Channel: CH295C (106.9 MHz)
File No: LMS-0000098372
Facility ID: 67082
Applicant: Tidewater Communications, LLC

Explanation of Auxiliary License to Cover Filing and Compliance with Special Operating Conditions or Restrictions

1. The applicant certifies coordination with other users of the site to reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.
2. *A waiver of Special Condition/Restriction Number Two (2) is requested at this time. The applicant acknowledges this Construction Permit authorizes the mounting of an antenna on the nondirectional tower of WJOI(AM), Norfolk, VA (FAC ID: 67081). However, antenna impedance measurements cannot presently be made as WJOI(AM) is operating off-tower under BSTA-20200306AAQ. Pursuant to the conditions of BSTA-20200306AAQ, antenna impedance measurements are required and will be taken when WJOI(AM) resumes licensed operation. If at that time, the resistance of the AM antenna has changed by more than 2 percent from the licensed value (see Section 73.45(c)(1) of the Commission's Rules), an application for the AM station to return to direct power measurement, including a tower sketch of the installation, shall be filed with the Commission by the AM station licensee using form FCC 302-AM. (See Section 1.30003 of the Commission's Rules.)*
3. The Applicant acknowledges station is utilizing a shared auxiliary antenna; but only one station will use the antenna at a time.
4. The applicant acknowledges it previously specified use of an ERI Model SHPX-4AC (EPA Type 3), four (4) section; circularly polarized, nondirectional FM transmitting antenna with one wavelength bay spacing to demonstrate compliance with the FCC radiofrequency electromagnetic field exposure guidelines. As no other type or size of antenna has been used with the facilities authorized herein, the automatic program test provisions of 47 C.F.R. Section 73.1620 continue to apply. In this case, no formal request for Program Test Authority need be filed in conjunction with this FCC License to Cover Application, nor are any further RF field showings required.
