**Silent STA Extension Request and Request for Waiver of 47 U.S.C. § 312(g)**

DTV America Corporation, licensee of KFJK-LD, Santa Fe, NM (Fac. Id. No. 183555) (the “Station”), hereby amends its pending request for an extension of silent special temporary authority (LMS File No. 0000072575)<sup>1</sup> and respectfully requests that the FCC grant a waiver extending the twelve-month off-air period of 47 U.S.C. § 312(g) until we receive necessary authorizations from the National Forest Service to commence operations (the “Authorizations”).

The licensee has been working diligently to resume operations by the Station’s 312(g) deadline of August 18, 2019. As of the date of this filing, all of the engineering, equipment and deliveries necessary to resume operation of the Station have been received and/or completed, other than receipt of the Authorizations. The licensee filed for the Authorizations on June 4, leaving ample time for the National Forest Service process, and was given the expectation that the Authorizations would be issued in early July. On July 15 we were asked to submit supplemental information, and submitted it to the National Forest Service on the same day. The licensee has been actively contacting the National Forest Service in pursuit of the Authorizations, but without success as of the date of this filing.

Were it not for the absence of the Authorizations, the Station would have resumed operational status by its 312(g) deadline, and its license to cover would have been filed accordingly. We anticipate that the Authorizations will be forthcoming imminently.

Given the irretrievable investments that the licensee has already made in constructing the Station in a timely manner, and given that the build for this Station is almost complete, the licensee respectfully submits that the Media Bureau is fully justified in granting this brief extension. Section 312(g) provides that “If a broadcasting station fails to transmit broadcast signals for any consecutive 12-month period, then...the Commission may extend or reinstate such station license if the holder of the station license prevails in an administrative or judicial appeal, the applicable law changes, or for any other reason to promote equity and fairness.”<sup>2</sup> Thus, the Media Bureau has the authority to extend the Station’s license “for any...reason to promote equity and fairness” and, the facts and circumstances faced by the Station justify the Media Bureau to use such discretion in this case.

---

<sup>1</sup> An STA extension has been on file and pending since May 10, 2019. The FCC has a history of granting such requests, particularly where, as here, the request is supported by good cause and granting it would further the public interest. *See, e.g.*, Application 0000034182, KZSD-LP, Facility ID 57054 (granting an LPTV station an STA extension on October 26, 2017, to allow the station to address “the fact that the Station’s existing STA frequency will no longer be available in the reduced post-auction broadcast spectrum”); Application 0000030510, KDUG-LD, Facility ID 128855 (granting an LPTV station an STA extension on October 2, 2017, to accommodate its filing of a minor change application); Application 0000033847, KLFA-LD, Facility ID 13999 (granting an LPTV station an STA extension on October 17, 2017, to accommodate the station’s concern “over whether [it] will be able to have a broadcast channel to operate on following repacking”).

<sup>2</sup> 47 U.S.C. § 312(g).

Exercise of the Media Bureau's discretion in this case will also advance the public interest by preserving service to viewers in the Station's community, ensuring that this community enjoys a diversity of free, over-the-air viewing options. It is unlikely that the Commission intends to open a window for new low power television licenses and allotments in the foreseeable future. Consequently, a failure to extend the Station's 312(g) deadline would result in an unused television allotment for the communities served by the Station, and a loss of valuable service to viewers, contrary to the public interest. For these reasons and those described above, granting this request is in the public interest.
