

WUGN, Midland, Michigan (Fac. Id. 20639)
Renewal Application
Statement Regarding Ownership Report Timeliness

Although the 2017 Biennial Ownership Report for applicant's parent entity reflects a "date-filed" of March 5, 2018 in the station public file, it is believed that the report was submitted late in the day on Friday, March 2, 2018, the extended ownership reporting deadline, and the FCC's systems defaulted to a submit/filed date of Monday, March 5, 2018. Applicant has therefore answered "yes" to the biennial ownership report certification, as it believes that the report was indeed timely filed on March 2, 2018 but its recognition as a filed report was delayed by the FCC's computer systems until March 5, 2018.

The 2015 Biennial Ownership Report for the licensee entity was filed on June 8, 2015, seven days after the then-applicable June 1, 2015 deadline. Applicant notes that its sole member, which had identical officers/directors and exercised 100% control of Applicant, timely filed its 2015 parent biennial ownership report on May 28, 2015, which was then placed in the station public file. Thus, despite the 7-day late licensee ownership report, complete information about the control and ownership of Applicant was fully available to the public as of June 1, 2015 based on the timely filed parent ownership report.
