

KKRA-LP
Rapid City, South Dakota
FID 23491
Silent Special Temporary Authority Request

This station went off the air on April 10, 2020 due to equipment problems. Rapid Broadcasting Company is taking all steps to resume normal operations as expeditiously as possible. KKRA-LP is having issues with the transmission line on the tower. We are currently exploring the option of installing a combiner to allow the transmission line and antenna to be shared between two stations and need additional time to acquire this equipment.
