

STA Extension Request  
W46AX-D/W27AA-D, Bryson City, NC (Fac. ID No. 69123)  
The University of North Carolina

**Justification to Extend STA for W27AA-D (W46AX-D)**

The instant request seeks continued authorization most recently extended in LMS File No. [0000091331](#) to operate the applicant's Bryson City translator temporarily on channel 27. Recently the Commission granted a construction permit for WUNW (File No. [0000036076](#)) to construct a 6-site DTS facility ("WUNW DTS CP"). The W27AA-D (W46AX-D) location is Site #5 in the WUNW DTS CP. Subsequently, in early May 2020, we filed to modify the WUNW DTS CP in which the W27AA-D (W46AX-D) Bryson City site is identified as Site #6 (LMS File No. [0000113389](#)). The STA parameters for the Bryson City site are consistent with those specified for Site #6 in the pending modification application in File No. [0000113389](#).

An STA was first granted for this operation in LMS File No. [0000059103](#) and extended in LMS File Nos. [0000072686](#) and [0000091331](#). No operating parameters have changed since that time. Grant of this STA extension request is in the public interest because it will keep the Bryson City translator on the air.
