

**ENGINEERING STATEMENT
MARYLAND PUBLIC BROADCASTING COMMISSION
LICENSE APPLICATION FOR
CONSTRUCTION PERMIT FILE NUMBER 0000034108
WWPB, HAGERSTOWN, MD
CH 29, 700 KW (H) / 350 kW (V) -DIRECTIONAL, 375 m HAAT**

This statement supports an Application for License submitted by Maryland Public Broadcasting Commission, licensee of WWPB, and specifically addresses the antenna model number.

The model number of the antenna stated in Construction Permit File Number 0000034108 is incorrect. The model number shown on the Construction Permit is a Dielectric TFU-25JTH/VP-R C150. The correct model number should be a Dielectric TFU-25ETT/VP-R 4C150. This application reflects the correct model number.

It is noted that there is no change in the tabulated antenna pattern data that was submitted for the construction permit. Only the model number was changed and the facility was constructed pursuant to all other technical parameters stated in the Construction Permit.
