

### **NARRATIVE STATEMENT**

WAUG-LD hereby respectfully requests special temporary authority to remain silent.

WAUG-LD is silent as of August 29, 2019, as a result of being displaced during the repack. On September 4, 2019, Commission staff previously granted WAUG-LD special temporary authority to remain silent (LMS File No. [0000080862](#)), given that the station's channel 8 facility was displaced by full-power station WNCN, Goldsboro, NC, near the Phase 5 completion deadline of September 6, 2019.

WAUG-LD was granted a displacement construction permit to operate on channel 4 (LMS File No. [0000054638](#)), but the licensee has not yet been able to build out the displacement facility. Accordingly, WAUG-LD respectfully requests special temporary authority to remain silent through August 28, 2020. The licensee is filing this new silent STA request, rather than for an extension of the prior STA, because the licensee inadvertently overlooked the deadline by which to file for an extension of the prior STA. The licensee apologizes for this oversight.

The licensee respectfully submits that granting this extension request is in the public interest because WAUG-LD has been and is continuing to take the steps necessary to transition to its displacement facility, and needs additional time to do so.
