

Online Public Inspection File

The requisite materials were timely provided in the WPMC-CD (the “Station”)¹ online public inspection file with the following exceptions:

- 2012 -2013 EEO report (due June 1, 2013) was uploaded into the public file on May 30, 2014;
- 2014 Class A Eligibility Certification;
- 1st Quarter 2014 Quarterly Issues and Programs List (due April 10, 2014) was uploaded into the public file on June 30, 2015, and
- 4th Quarter 2019 Children’s Commercial Limits Certification (due January 10, 2020) was uploaded on April 9, 2020 - due in part to station personnel’s confusion regarding the recent rule changes which shifted certification from a quarterly event to an annual event.

¹ WPMC-CD’s license was last renewed in May 2013. See FCC File No. BRTTA-20120530ACA. WPMC-CD and WNLO-CD, both located in the Norfolk, Virginia market, rebroadcast the programming of commonly owned and operated WVBT(TV). WPMC-CD, WNLO-CD, WVBT(TV), along with WITD-CD, WKTD-CD and WAVY-TV, also commonly owned and operated and in the Norfolk market, constitute one station employment unit for EEO reporting purposes.
