

Online Public Inspection File

The requisite materials were timely provided in the WDCW(TV) online public inspection file with exceptions as detailed below.

The WDCW 2015 Annual EEO Report, while completed in a timely fashion and a hard copy was located at the station according to the WDCW EEO Audit Response submitted on April 7, 2016, was not uploaded to the FCC online public inspection file until March 7, 2016 due to a miscommunication between the HR Manager at the time and station personnel.

The WDCW 4th Quarter 2018 Quarterly Issues and Programs List was not uploaded to the station's online public file until June 1, 2020. The Station had stopped airing its news in 3rd Quarter 2018 and mistakenly believed it did not need to prepare and upload a report. It has since rectified this error and listed the programs and specials aired.

The WDCW 4th Quarter 2018 Quarterly Commercial Limits Certification was timely prepared but not manually uploaded into the online public inspection file until January 28, 2019.

To avoid this situation in the future, station personnel responsible for the preparation and submission of the reports will be re-educated as to the Commission's filing protocol.
