

Alpha Media Licensee LLC – Dayton, OH Online Public File

In preparation for filing its license renewal applications, Alpha Media Licensee LLC (“Alpha”) has conducted audits of the online public inspection files at its radio stations. Having become aware of deficiencies with respect to the timely upload of political advertising information in certain markets, and as the Commission is aware, Alpha, with commitment at the highest corporate levels, redoubled the company’s efforts to train staff consistently and to implement company-wide operating procedures so as to ensure that requisite information is timely uploaded to the online public file in compliance with the Commission’s rules. Alpha submitted documentation of these efforts to the Commission in April 2020. In Alpha’s Dayton, OH cluster, there were no instances in which political advertising information was uploaded late to the online file in 2020.

Moreover, our review of the issues/programs lists for the Dayton, OH cluster indicates that each station may have uploaded its Q4 2012 issues/programs lists in May 2020. Additionally, WDHT-FM and WROU-FM uploaded its Q4 2018 issues/programs list approximately 20 days late.

Alpha will continue to monitor online public file compliance closely going forward.
