

Request for Extension of Special Temporary Authority

KASY-TV Licensee LLC, licensee of KASY-TV, Albuquerque, New Mexico (Facility ID 55049) hereby requests an extension of Special Temporary Authority (“STA”), due to circumstances beyond its control, to continue operating at variance from licensed parameters while the station works to repair its antenna feed. The station was granted STA to operate at effective radiated power of approximately 50% of licensed power on December 4, 2019. *See* File No. 0000091523. Progress towards resuming licensed operations has been impeded by the COVID-19 pandemic and resulting delays. As such, the licensee respectfully requests an extension of STA to allow additional time for it to work with the tower company and other affected licensees to implement measures necessary to resolve this issue. Grant of this STA extension would serve the public interest because operating at reduced power would allow the station to continue serving its viewers pending completion of the necessary repairs.
