

### **Request for Extension of Special Temporary Authority to Remain Silent**

Gray Television Licensee, LLC (“Gray”), on behalf of its low power television station KSWX-LD, Duncan, Oklahoma (FID 130242), hereby requests an extension of its special temporary authority to remain silent and an extension of the deadline by which the station must return to the air or forfeit its license pursuant to Section 312(g) of the Communications Act of 1934, as amended. Currently, the date by which KSWX-LD must return to the air is 12:01 a.m. on June 8, 2020.

KSWX-LD built and licensed its displacement facility but was required to take the station silent because the building on which it was located need to be taken down. The station will need to relocate to a new tower or building before it can resume operations. Because of wide-spread construction delays due to COVID-19, the station is unable to resume operations at this time. The station is searching for options for a temporary facility that will allow it to resume operations.

Gray is working to return KSWX-LD to the air and requests an extension of the deadline to return the station to the air.
