Digital Low-Power Television Station K29LK-D  
1.79 kW ERP DA / Channel 29  
Springfield, Missouri

Digital Networks-Midwest, LLC

July 2020

## **APPLICATION FOR LICENSE**

The following engineering statement has been prepared for **Digital Networks-Midwest, LLC** ("Midwest"), licensee of low power television station K29LK-D at Springfield, Missouri, and are in support of their application for license to cover changes to that facility. This application is being filed to cover the construction permit assigned LMS File No. 0000068381.

Under the referenced construction permit, K29LK-D is authorized to operate on television channel 29 with a maximum effective radiated power of 1.79 kW at a center of radiation of 423.7 meters above mean sea level, 30 meters above ground level, utilizing a composite directional antenna. The antenna authorized and utilized by the facility, is a composite directional array, which consists of two Kathrein-Scala PR-TV antennas. One of these antennas is oriented at 185 degrees true, with the other oriented at 325 degrees true. Midwest has completed construction of the facility utilizing the authorized parameters. The installed equipment achieves the authorized effective radiated power.

The construction permit, as issued by the Commission, lists one special condition or restriction. This condition advises Midwest that the authorization is a Low Power Television authorization, and as such, is secondary. Midwest is cognizant of the interference requirements imposed on it by the authorization, and will comply, as necessary.

Midwest certifies that it will protect workers and other personnel from being exposed to levels of radiofrequency radiation in excess of the applicable safety standards, and will coordinate
