

### **Interference Statement**

Georgia Public Telecommunications Commission ("GPTC"), licensee of noncommercial educational TV stations WGTW, Athens, Georgia, WACS, Dawson, Georgia and WMUM-TV, Cochran (Macomb), Georgia, (the "Stations") acknowledges that the continued operation of the Stations on their pre-auction channels after July 3, 2020, is predicted to cause interference to the operations of other broadcast television stations in excess of the amount permitted under applicable FCC rules and policies. GPTC is working to reach interference agreements with the licensees of each potentially affected television station. If such agreements cannot be reached by midnight on July 3, 2020, GPTC will take such actions as may be necessary to bring the level of interference caused by the operation of the Stations down to an amount that is permissible under applicable FCC rules and policies, including reducing the operating power of the Stations.

GPTC consents unequivocally to accept any increased interference to the operation of the Stations caused by any source during the Stations' continued operation on their pre-auction channels. GPTC also consents to interference caused by the Stations to any other television stations licensed to GPTC.
