Digital Low-Power Television Station WLOW-LD  
2.0 kW ERP DA / Channel 30  
Charleston, South Carolina

Digital Networks-Southeast, LLC

July 2020

## **APPLICATION FOR LICENSE**

The following engineering statement has been prepared for **Digital Networks-Southeast, LLC** ("Southeast"), licensee of digital low power facility WLOW-LD at Charleston, South Carolina, and is in support of their application for license to cover modifications to that facility. This application is being filed to cover the construction permit assigned LMS File No. 0000115936.

Under the referenced construction permit, WLOW-LD is authorized to operate on television channel 30 with a maximum effective radiated power of 2.0 kW at a center of radiation of 37.6 meters above mean sea level, 30 meters above ground level, utilizing a composite directional antenna, which consists of two Kathrein-Scala PR-TV antennas. One of these antennas is oriented at 50 degrees true, with the other oriented at 270 degrees true. Equal power division between the two elements is employed. Southeast has completed construction of the facility utilizing the authorized parameters. The installed equipment achieves the authorized effective radiated power.

The construction permit, as issued by the Commission, lists one special condition or restriction. This condition advises Southeast that the authorization is a Low Power Television authorization, and as such, is secondary. Southeast is cognizant of the interference requirements imposed on it by the authorization, and will comply, as necessary.

Southeast certifies that it will protect workers and other personnel from being exposed to levels of radiofrequency radiation in excess of the applicable safety standards, and will coordinate
