

### **Amendment**

Four Seasons Peoria, LLC (“FSP”), licensee of WAOE, Peoria, Illinois (FID 52280), hereby requests an expediated grant of digital replacement translator application FCC File Number 0000117955.

Attached herein is a letter from DISH Network stating they have ceased carriage of WAOE because DISH is unable to receive the OTA signal from WAOE’s permanent post-auction facility on channel 10.

The grant of this digital replacement translator application will enable WAOE to provide a good quality OTA signal to DISH for carriage on its network.

**Re: Mandatory Carriage Election  
WAOE – Peoria IL DMA**

Dear Station Manager:

Per notification to DISH from WAOE's engineering team and per the FCC website, WAOE has been reassigned from RF Channel 24 to RF Channel 10. An RF Survey performed by DISH Field Engineering indicates that DISH is unable to receive the OTA signal from WAOE from your new RF Channel location and thus WAOE is no longer able to deliver a good quality signal to the DISH local receive facility in the Peoria IL DMA. As such, DISH Network has ceased carriage of WAOE in the Peoria IL DMA until such time that the station delivers a good quality signal to the DISH Network local receive facility in the market.

Please find the address of our local receive facility in the Peoria IL DMA listed below for your reference.

DISH Local Receive Facility  
606 NE Jefferson  
Peoria, IL 61603

If you have questions pertaining to signal delivery improvements or delivery through another method, please contact Teresa Cain, Locals Operations at (303) 723-2628.

Sincerely,
