

### **Publicizing Children's Reports**

Licensee complied with the Commission's former rule that required television broadcasters to publicize the existence and location of the station's children's television programming reports. Licensee publicized the existence and location of the reports on its website and routinely ran on-air notifications for the same purpose. However, due to an administrative error in coding the on-air notification in the WHNS traffic system, the on-air notification did not air between 1st Quarter 2018 – 1st Quarter 2019. The error was discovered upon a change in station staffing. Upon discovery of the error, the Station promptly resumed the on-air notification and amended all of the applicable Children's Television Reports (FCC Form 398). Licensee notes that the WHNS website contained a continuous, active link to the station's Children's Television Program Reports during this time and that the Commission's July 2019 order eliminated the requirement that television broadcasters publicize the existence and location of their children's programming reports.
