

## **Amendment Statement**

prepared for  
**5GTV, LLC**  
W07BN Bruce, MS  
Facility ID 7359  
Ch. 14 3 kW 234.7 m AMSL

This amendment is being submitted to change the requested transmitter location. The original submission specified ASR 1054476 with an antenna AMSL height of 234.8 meters. The instant amendment specifies the use of ASR 1212398 with an AMSL height of 234.7 meters. Following are the form changes listed.

General Information: “Yes” to attachments.

Fees, Waivers and Exemptions: “No” to both questions.

Antenna Location Data: Used the ASR Number (1212398) Lookup to prefill Latitude, Longitude, Structure Type, Overall Height, Support Height and Ground Elevation.

Antenna Data: Height of Radiation Center Above Mean Sea Level: Automatically recalculated based on different ground elevation.

Antenna Manufacturer and Model: Changed Model to “Custom 1x2”. No other antenna information changes.

Environmental Effect: Answered “No” to Environmental Effect.

Broadcast Facility: Answered “Yes” to Compliance with Rule Sections.
