

The licensee has carefully reviewed the station's online public inspection file to assure that items filed via the Commission's electronic filing systems and expected to populate in the public file have done so, and that items required to be uploaded to the station's online public inspection file have been as of this time. The station did not upload all items required to be uploaded to the station's online public inspection file in a timely fashion. For example, the station's Second Quarter 2019 Quarterly Issues/Programs List was uploaded with the station's Third Quarter 2019 Quarterly Issues/Programs List. In addition, it is noted that the station's 2019 ownership report had not be filed, but has been now, and there is no change in the station's ownership since its prior filing. The station is redoubling its efforts to meet all public inspection file deadlines.
