

**RF Exposure Statement
for
KDFW Dallas, TX
ATSC 3.0 Guest on KSTR
Channel 34**

This application is to request authorization for KDFW Dallas, TX (Facility ID 33770) to transmit content in ATSC 3.0 format as a guest on the facilities of station KSTR-DT (Facility ID 60534) channel 34 Irving, TX. Therefore, this statement applies to the already licensed facility of KSTR-DT.

The KSTR-DT facility has an effective radiated power (ERP) of 1,000 kW and a center of radiation 472.1 meters above ground level (AGL). An analysis of the radiation levels at 2 meters AGL indicates the RF exposure level is well below the allowable limit for an uncontrolled area and therefore meets the requirements. The applicant agrees to abide by all other current safeguards related to the site with regards to the safety of both workers and the general public.
