

### **Purpose of Amendment**

America-CV Station Group, Inc. (“ACV”), licensee of WJWN-TV, San Sebastian, Puerto Rico (Facility ID No. 58342) (“WJWN-TV”), hereby amends its pending DTV Engineering STA application (“Engineering STA Application”), filed on August 6, 2020, for authority to operate WJWN-TV with a reduced power level as was originally authorized in WJWN-TV’s construction permit (LMS File No. 0000120213). ACV is filing this amendment to revise the Engineering STA Application to correct the engineering structure and antenna information in the Antenna Location Data and Antenna Technical Data sections. ACV has also revised its original exhibit regarding the circumstances for operating at reduced power to reflect the correct the technical data and ERP at which WJWN-TV is currently operating. ACV submits through its amended Engineering STA Application and corresponding amended exhibit that it is requesting authority to operate with reduced power at 500 watts TPO and 28 kilowatts effective radiated power (“ERP”), being 6% of the ERP level as was originally authorized in WJWN-TV’s construction permit.

No other changes to WJWN-TV’s Engineering STA Application are being made herein.
