

License Renewal Amendment

FCC Violations

On July 22, 2020, the FCC's Media Bureau released an Order and related Consent Decree which settled and fully resolved matters involving Licensee's certain violations of the Political File Statute and Rule (as defined in the Consent Decree). *See* FCC DA 20-775. As a result, Licensee has amended this renewal application to change the answer to the "FCC Violations during the Preceding License Term" certification from "Yes" to "No."
