Public File Explanation

WFGC's 2013 Q1 issues/programs list was originally timely uploaded by the April 10, 2013 deadline, but inadvertently deleted and re-uploaded on April 29, 2013 as part of post-renewal online public file clean up efforts. The 2013 Q2 issues/programs list was uploaded seven days after the July 10 2013 deadline. The 2014 Q1 issues/programs list was uploaded one day late on April 11, 2014. The 2014 Q4 issues/programs list reflects an upload date of January 12, 2015, which was timely due to the January 10th deadline falling on a Saturday.

WFGC's 2013 Q2 children's television commercial limits certification was uploaded one day late on July 11, 2013, and the 2015 Q1 children's television commercial limits certification was uploaded three days late on April 13, 2015.

In light of its overall public file upload timeliness during the license term, WFGC respectfully requests that the minor upload delays described above be considered *de minimis* in nature.
