

### **DATE STATION WENT SILENT**

LMS will not permit an entry prior to 30 days before today's date; therefore, applicant has indicated August 9, 2020 as the date that W05DH-D went silent in order to have the system accept the application. However, the actual date that the station went silent is **March 22, 2020**. As noted in the other attachment, licensee inadvertently did not file a timely STA. To the extent necessary, applicant respectfully requests a waiver due to the ongoing pandemic, which has caused substantial adverse impact to the licensee's business and other operations.
