

**NBC Telemundo License LLC  
KTLM-DRT, Harlingen, Texas (FID No. 62354)  
Notice of Suspension of Operations**

NBC Telemundo License LLC (“NBC”), licensee of Digital Replacement Translator KTLM-DRT, Harlingen, Texas (Channel 22) (the “Translator”), hereby notifies the Commission that the Translator has suspended operations due to a malfunctioning exciter. The transmitter had been powered down in order to replace the lighting system and, while initially there was no issue powering up again, it came to our attention on September 2, 2020, that the exciter had ceased operating. We shipped the equipment to the manufacturer and during the process of replacing the power supply, it was discovered that several chips were faulty.

The translator will resume operations upon procurement and installation of replacement parts, or once a new translator has been acquired and installed. Further, we will either notify the Commission when operations have been restored or file a request for Special Temporary Authority not later than October 2, 2020.
