Subject: FW: KXLK-CD ATSC 3.0 Application

Hi, Nora. We received the below inquiry from the staff with respect to the recently-filed ATSC 3.0 license modification to KXLK-CD, Austin, TX. As you'll see, the staff requests that you file an amended application to address whether there is a written agreement between KXLK and KAKW. Also, the exhibit that was uploaded seems to indicate that KXLK-CD will serve as the 3.0 host to KTBC, Austin, TX, with no mention of hosting KAKW-DT. If that is the case, given the staff query, it is advisable to explicitly state that KAKW is not being hosted as well. Let me know if you need help or have any questions. Additionally, could you let me know when the amendment is filed so we can let Evan know? CP

[EXTERNAL]

Hi Matt,

Can you clarify whether or not KXLK-CD has a written simulcasting agreement with KAKW-DT? I ask because I know both stations are commonly owned and the trend seems to be, given our May 2018 PN guidance, that commonly owned stations are not entering into written agreements. That is fine, but if it is the case can you please amend the application for KXLK-CD to certify "No" to the written simulcasting agreement question and provide an exhibit explaining there is none given the stations are commonly owned? I'm also assuming that because KXLK and KAKW air the same programming that KAKW will not be an ATSC 3.0 guest on KXLK-CD's facility, correct?

Thanks! Please let me know once complete so we can finish processing the application.

Evan
