

K25FW-D, Corsicana, TX

Facility ID# 42342

21 October, 2019

Request for extension of silent STA

K25FW-D on channel 25 had to be shut down on 04/12/2019 due to complete failure of both air conditioning systems. KPXD-DT was also scheduled to begin testing on their post-repack channel 25 on 04/13/2019 according to the phase 3 timeline.

Ventana management is working through a number of complex issues regarding the mutual interference agreement formerly filed for the requested channel 7. As soon as these issues are resolved Ventana intends to begin construction of its displacement facility.

Therefore, Ventana Television Inc. seeks continued relief from section 74.763(b) in the form of an extension to its silent STA (0000072064) until the facility can be rebuilt on channel 07 per its displacement CP (0000054800).

This application is in the public interest by enabling K25FW-D to return to normal broadcasting as soon as the new facility can be constructed on channel 7 and the air conditioning systems replaced.

An extension of the current silent STA is requested for a period of six months from the date of this application and an extension of its license pursuant to 47 U.S.C. 312(g), beyond the one-year silent anniversary.
