Renewal Application
Online Public File Compliance

KDNI's 2017-18 EEO public file report shows an upload date of 11/27/2019 in the online public file, but the history folder shows that the report was originally timely uploaded on 11/28/2018. The date change was due to public file reorganization efforts that inadvertently resulted in the deletion and re-addition of the report to the public file.
