

**WGNM, Macon, GA (Fac. Id. 24618)**  
**Renewal Application**  
**Public File Explanation**

WGNM's Q1 2015 issues/programs list was due no later than 4/10/2015 but shows an upload date of 7/9/2015. However, the WGNM online public file history folder reflects both a deletion of the Q1 2015 report *and* a new upload of that report on 7/9/2015, and WGNM therefore believes that the Q1 2015 report was originally timely uploaded by the 4/10/2015 deadline and available for public viewing, and later inadvertently deleted and reloaded on 7/9/2015 when the station was uploading its Q2 issues/programs list.

WGNM's Q4 2017 issues/programs list and commercial limits certification were each uploaded one day late on 1/11/2018 after it was discovered that the original uploads timely made on 1/10/2018 were for the wrong quarter.

WGNM respectfully submits that the minor delays described above are *de minimis* in nature, especially in light of its overall compliance with online public file requirements during the 8-year license term.
