

KTSC-FM Online Public File Statement

All of the KTSC-FM Quarterly Issues-Programs Lists were prepared and posted in the Public File at the appropriate times. During the preparation of the KTSC-FM license renewal application it was discovered that qualifying remote broadcast program content was not included on the quarterly lists, where applicable. Therefore, upon the advice of counsel for KTSC-FM, revised quarterly lists were recently posted to reflect the remote broadcast program content. All of the originally posted quarterly lists remain in the Public File.
