**Mid-South Public Communications Foundation**

**Explanation of Circumstances Causing Need to Operate with Reduced Power**

WKNO(TV) has been operating at half-power since November 1, 2020, due to an equipment failure which is still being investigated. Specifically, the WKNO(TV) transmitter has two power cabinets combined to make full power and one of these power cabinets has failed.

Parts have been sent to the repair facilities for refurbishment but, at this time, there is no estimated timeframe for a return to full-power.
