

W20DE-D, Birmingham, AL

Facility ID# 61208

19 May, 2018

Technical Exhibit

W20DE-D on channel 20 will be displaced by WABM-TV on 08/03/2019 when WABM-TV is scheduled to begin testing its final repack facility on channel 20.

Therefore, Ventana Television Inc. submits this displacement application to move to channel 18. Ventana acknowledges that TV Study currently shows prohibited interference to WDBB-DT in Bessemer (Birmingham), AL., however WDBB is scheduled to repack to channel 14 during phase 5 by 09/06/2019. Due to the repack timeline involved the Commission is requested to disregard interference reported by TV Study to WDBB. See attached waiver request for further information.

This proposal is also predicted to receive interference in excess of de minimis levels. Ventana Television agrees to accept this level of incoming interference.
