Request for Waiver

The attached TV Study report indicates prohibited interference by this proposal to WDBB-TV in Bessemer (Birmingham), AL (BLCDT-20060421ABG). However, WDBB-TV is scheduled to move to channel 14 in repack phase 5 which concludes 09/06/2019. That move will open up channel 18 for use by W20DE-D.

Therefore, Ventana Television requests a waiver of the Contingent Application Rule 47CFR3517 which will allow W20DE-D to move to that channel which would otherwise be unavailable for application at this time.

Ventana fully acknowledges that transmission on channel 18 cannot begin until WDBB-TV completes its move to channel 14. On that basis Ventana requests the interference reported by TV Study to WDBB-TV on its licensed channel 18 be disregarded in processing this proposal.
