Public Inspection File

As of the date of this renewal of license application, licensee believes that all documents required to be uploaded to the station's public inspection file have been added thereto. While the licensee believes it substantially complied with the public inspection file rule during the license term, certain documents were uploaded to the online public file after the applicable deadlines. Specifically, licensee discovered during the preparation of this license renewal application that issues and programs lists for the fourth quarter of 2018 through the third quarter of 2020 had not been uploaded in a timely manner. Those documents have now been uploaded to the file.
