

WFBD, Destin, Florida (Fac. Id. 81669)
Renewal Application
Minimum Operating Schedule Explanation

Radiant Life Ministries, Inc. (RLM) acquired this station on September 23, 2020 and it was silent at that time pursuant to FCC authority granted in LMS 0000117597. WFBD's silent status is due to the ongoing station tower modification and installation of a new antenna, transmitter and transmission line in connection with the post-auction transition of the station from channel 48 to 29. Construction of the channel 29 facilities is continuing and completion is anticipated later this year. The silent status will continue until construction is completed, and therefore WFBD, for a period exceeding 30 days, will be unable to operate for the minimum periods required in Section 73.1740(a)(2)(ii). Though it has only been licensee for a few days as of the filing of this renewal application, RLM has prospectively responded "no" to this question so that once 30 days transpire without operations that meet the minimum schedule requirements, it will not have to amend its renewal application to change the response to this certification. As explained in its response to the silent station certification, RLM will file an amendment to this renewal application once operations on channel 29 commence.
