

Installation Impedance Statement

During the installation of the FM translator antenna for K297CD 107.3 FM, antenna impedance measurements on the KVPI 1050 AM antenna were made. Measurements were taken pursuant to Section 73.51 of the Commission's Rules via the indirect method. The KVPI 1050 AM antenna resistance did not change by more than two percent from its licensed value. Applicant respectfully asserts that it has complied with the requirements of this condition on its construction permit for K297CD 107.3 FM.
