

**Technical Statement**  
**Translator W245BJ**  
Seeks Channel 242D – 96.3 MHz  
0.250 kW ERP – 609 m COR AMSL  
Crossville, Tennessee  
January 2021

Peg Broadcasting, LLC seeks to change the channel of Translator W245BJ Crossville, TN from Channel 245 to 3<sup>rd</sup> adjacent Channel 242 because it is being displaced by the Construction Permit (File No. 0000102158) of WLIV-FM at Monterrey, TN. Since there is no site change, the 60 dBu contour of the proposed W245BJ facility overlaps the 60 dBu contour of the licensed W245BJ facility, making this a minor change application.
