BNPFT-20171213AAY
Edenton, North Carolina
Facility ID 201617

Compliance with Special Operating Conditions or Restrictions

The construction permit for this facility has four (4) special operating conditions or restriction.

This statement provides details on compliance with all.

- (1) The permittee/licensee in coordination with other users of the site will reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.
- (2) This application is being filed prior to commencing program test operations, as required.
- (3) The antenna base impedance for WZBO (AM) was measured after installation of the W297CJ antenna. A new FCC Form 302-AM is being prepared to return WZBO (AM) to direct power measurement.
- (4) The permittee/licensee acknowledges that this translator is tied to the underlying AM station in perpetuity.
