

**Children's Television Programming Reports**

The Licensee has certified in the affirmative to the question asking whether during the period of time covered by this application, it has filed with the Commission, and incorporates by reference, the Children's Television Programming Reports described in 47 C.F.R. § 73.3526, containing all required information. The Licensee submits this explanatory exhibit to address the following circumstance.

The Licensee timely filed all Children's Television Programming Reports during the applicable period, containing all required information. However, the Third Quarter 2019 Report states that the station aired an average of 504 hours per week of free over-the-air digital video programming on other than its main program stream—thus indicating three multicast program streams. This was an inadvertent error. The station broadcast only two multicast program streams during the quarter. The Licensee hereby amends the Third Quarter 2019 Report to state 336 rather than 504 average hours per week of free-over-the-air digital video programming on other than its main program stream. There are no other changes.

The Licensee incorporates by reference KHBS(TV)'s Children's Television Programming Reports filed during the license term as amended hereby.
