

Engineering Special Temporary Authority Request

HC2 Station Group, Inc. ("Licensee") respectfully requests an Engineering Special Temporary Authority (STA) pursuant to the technical specifications listed in the application.

Public Interest Benefits. The station's transmitter is unable to make full power and is currently producing 4.65 kW Effective Radiated Power. On 28 January 2021, it was identified that two of the eight amplifiers require service from the manufacturer. The defective amplifiers have been removed and have been shipped back to the manufacturer for repair. Once the repaired amplifiers are received from the manufacturer and installed, the station will return to licensed operations. Grant of Licensee's Engineering STA promotes the public interest as it will allow KNWS-LD to continue to provide free over-the-air programming to the community and the surrounding area.

Conclusion. Licensee respectfully requests that the Commission grant this Engineering STA for KNWS-LD.
