

Engineering Special Temporary Authority Request

DTV America Corporation (“Licensee”) respectfully requests an Engineering Special Temporary Authority (STA) pursuant to the technical specifications listed in the application.

Public Interest Benefits. The station’s transmitter is unable to make full power and is currently producing 10.65 kW Effective Radiated Power. On 27 January 2021, it was identified that one of the amplifiers requires repair. The manufacturer has been contacted and is working directly with the Licensee’s Chief Engineer to facilitate an expeditious repair. Once the amplifier is repaired, the station will return to licensed operations. Grant of Licensee’s Engineering STA promotes the public interest as it will allow KFVT-LD to continue to provide free over-the-air programming to the community and the surrounding area.

Conclusion. Licensee respectfully requests that the Commission grant this Engineering STA for KFVT-LD.
