

### **KEUB-FM1 Antenna Model**

In the course of preparing this license application, it was not possible to enter text into the fields for Transmitting Antenna Manufacturer/Make, and Model. The fields appear blank, and can be highlighted, but no text can be entered. Nevertheless, the Antenna Technical Data page will successfully validate, even though those are indicated as required fields.

Out of prudence, this exhibit is included to confirm that the antenna model is as specified in the construction permit application.

Manufacturer/Make: SAM

Model: 2XSAM-137; 70&300
